Overview

The Dashboard has a ribbon below the toolbar that can be expanded to offer more possibilities. This is done with the "Advanced Tabs" button on the right.

When the ribbon is expanded, the following tabs become available:

- Custom
- Applications & Modules
- Scripts
- Builds
- Build (Global)
- Environment Variables

If an advanced settings tab is active and the “Advanced Tabs” button is clicked again, the user will be returned to the Dashboard screen.
