CanvasControl

Adds a new canvas control to the solution. The system creates the control with `Is Canvas Control` enabled.

Item	Description
Destination path	Specifies the folder in the solution where the system places the new item. Click **Browse...** to select an existing folder.

Item	Description
Name	Sets the name of the new item.
Category	Specifies the category that the new item belongs to. The Toolbox uses this category to classify the item.
Order Index	The Toolbox uses the Order Index to sort controls.
Description	Describes the new item in detail.
Annotations	Serves as storage for notes and other project-related information. The system exports the entered text to the HMI report.
URI	You can set any URI. If you enter a valid URI, clicking it launches the browser and displays the contents of the link.
Export Always	Specifies whether the system always includes this item as part of the asset.
Is Canvas Control	Indicates whether the control is of type Canvas. The system creates a CanvasControl item with this property enabled.
