Control2D

Adds a new 2D control to the solution.

> For the procedure to create a control, refer to Create Controls.

Item	Description

Destination path	Specifies the folder in the solution where the system places the new item. Click **Browse...** to select an existing folder.
Name	Sets the name of the new item.
Category	Specifies the category that the new item belongs to. The Toolbox uses this category to classify the item.
Order Index	The Toolbox uses the Order Index to sort controls.
Description	Describes the new item in detail.
Annotations	Serves as storage for notes and other project-related information. The system exports the entered text to the HMI report.
URI	You can set any URI. If you enter a valid URI, clicking it launches the browser and displays the contents of the link.
Export Always	Specifies whether the system always includes this item as part of the asset.
